

On November 29, 2018 Kharkiv Regional Institute of Public Administration of the National Academy of Public Administration attached to the Office of the President of Ukraine holds the Fifth Annual Science and Education Exhibition “Public Administration of the 21st Century”.

The Exhibition goals are to contribute to the establishment of the civil service and local governments as a basis for developing the sovereignty of the people, democratization of social relations and strengthening the Ukrainian nationhood; to present the achievements, modern developments and opportunities of the Public Administration knowledge domain; to establish constructive interaction between social service providers and business environment; to promote creation and implementation of innovational scientific and educational projects; to extend international integration and cooperation in the sphere of public administration; to present the accomplishments of Kharkiv regional public authorities.

The Exhibition agenda includes presentations of:

- public authorities' achievements;
- domestic and foreign educational establishments that train public administration experts;
- the best scientific and teaching developments in the field of public administration;
- research results, education projects, scientific and applied programs of cooperation with public authorities;
- specialized and popular scientific publications in the public administration field;
- e-learning educational and methodological complexes; rating systems for education quality assessment; scientific products, programs, and solutions for automated management of educational institutions;
- innovational projects, practically-oriented intellectual products in the public administration domain; as well as
- seminars, trainings, master-classes delivered by leading scholars and practitioners, and panel discussions.

The Exhibition participants will have an opportunity to take part in the work of a discussion club, seminars, round-tables, open lectures and master-classes, which will present the outcomes of the creative efforts of research teams, innovational projects aimed to modernize the sphere of public administration, exchange best practices with educationalists from different institutions and public authority practitioners, which can give a new impetus to the development of a scientific and educational dialogue and search for common solutions of pressing social problems.

The Exhibition is opened: 29.11.2018 from 9 am to 4 pm.
